

Selection of 3 Phase Power Controllers

	<p><u>PC335 3 Ph Phase Angle Controllers for all Type loads</u> 15 to 2000A, up to 600Vac Auto adjust for 50 or 60 Hz operation Logic ON/OFF control Ramp up & down control</p>	<p>PC338 water cooling, 550A thyristor controller</p> 
<p><u>PC338 water cooling</u> Same specification as PC335 → 200A to 550A, standard unit. AC to DC or AC to AC control Available.</p>		
<p><u>PC537, PC535 3 Ph Phase Angle Controller</u> 3 phase unit for short wave infra red lamp control Low cost, compact Ramp up and ramp down control Each output channel can be individual adjust or control 15A to 100A, up to 600Vac supply</p>		
	<p><u>ER Range & PC220 3 Ph Burst Firing Controller</u> Meet CE EMC requirement ERs control from 3KW to 90KW 3 phase 3 wire star or delta loads PC222s control 10KW to 864KW 3 phase 2 wire star or delta loads</p>	
<p>ER20, 20KW</p> 		
<p><u>ERM Range 3 Phase Burst Firing Controller</u> ERMs control 3 phase 3 wire loads from 108KW to 864KW. <u>PC223s</u> control 3 phase 4 wire loads or 6 wire open delta loads from 15A to 1000A per phase, Up to 600Vac, higher supply voltage available.</p>		 <p>D : depth H : height W : width</p>
