

TC1 - 0 to 35°C Temperature Controller

Features

- ❖ High accuracy
- ❖ Accept 4K7 thermistor as temperature sensor
- ❖ 24Vac supply, accept aux. 24Vac supply from most of the ER range thyristor power controller
- ❖ Separate heat & cool proportional control output signals
- ❖ DIN rail mount for fast fixing

Specifications

Supply voltage	24Vac +/-10%
Supply frequency	47 to 63Hz
Supply VA rating	1.5VA
Temperature sensor	4K7 thermistor
Temperature control range	0 to 35 degree C
Accuracy	+/- 1°C
Heat & cool channel output	0 to 10Vdc, 5mA max.
Dimension	W: 64mm; H: 64mm; D: 62mm above the mounting DIN rail
